

# POLI-WET GOLD

IMPREGNATED ROLLS FOR BLANKET CLEANING SYSTEMS

**NEW**

## Introducing **NEW POLIWET GOLD**

From Policrom Screens the new pre-soaked washcloth miniroll, designed using a special cleaning solution that ensures the following benefits:

- a complete line that ensures the best cleaning performance with all types of inks, including UV and HUV
- it is fit for high temperature applications (web offset)
- it grants the best fit with the cloth, penetrating the fibers so deeply that it does not require any vacuum package:
  - maximum durability on the press
  - cloth quality is respected
- ready to use: no need of preparation time

Can be kept in stock for at least 6 months after purchase
